DIGI - CIVIS

Empowering Students through Digital Citizenship

Digi-Civis Project: The Results Are In!

The Digi-Civis project has **successfully completed** its **testing phase**, bringing digital citizenship into the classroom with practical, engaging, and ready-to-use resources for both teachers and students

✓ **200+ teachers**

✓ **400+ students**

tested our **pedagogical sequences** and **situational cards.**

The outcome? A big success!

What Makes Digi-Civis Stand Out?

- Clear, ready-to-use and time-saving resources.
- Real-life scenarios that spark critical thinking and debate.
- Designed to be inclusive, even for students with special educational needs.

What Did We Achieve?

- Students became more aware, critical and responsible digital citizens.
- Greater engagement and participation.
- Teachers appreciated the practicality and ready-to-use approach.

Want to Bring Digital Citizenship into Your Classroom?

Discover innovative resources that help you teach the safe and responsible use of technology while saving time!
