

Pedagogical sequences for digital citizenship

The development of pedagogical sequences for digital citizenship is one of the main outcomes of the Digi-Civis project. This detailed set of pedagogical sequences will be designed to **integrate digital citizenship aspects into everyday teaching**, offering practical resources for educators.

Why our pedagogical sequences are a must-have

Our pedagogical sequences stand out with their innovative approach and practical application. Featuring **40 sequences**, they cater to various age groups, ensuring that digital citizenship education is relevant and engaging for students at every stage of their development.

The sequences are carefully aligned with the fundamental principles of digital citizenship, ensuring that students receive a well-rounded education that prepares them for the digital world. The sequences cover **seven themes** of digital citizenship:

- Basics about Digital Citizenship
- The Digital Ecosystem and the Digital Citizen
- Safe Online Navigation
- Ethical Online Communication
- Critical Evaluation of Information
- The Digital Consumer
- Time Management and Digital Well-being

Get started today!

All pedagogical sequences will be accessible in the Digi-Civis website. Stay tuned to Digi-Civis and don't miss the latest news by visiting our website and following us on social media!
